

**Board of Fire Commissioners
Tinton Falls Fire District #1
2 Volunteer Way
Tinton Falls, NJ 07753**

Minutes of Workshop on July 16, 2015

The workshop was called to order by President Sean Donohue at 7:00PM.

The Board was addressed by Commissioners of Tinton Falls Fire District #2 (District #2). The main issue discussed was which District has primary response obligations of the old CEECOM property. District #2 stated that the property should be divided by the line created by Tinton Ave. Tinton Falls Fire Marshal Cary Costa was in attendance and confirmed that the property cannot be divided and is governed by block and lot number. Accordingly, this confirms that primary response is that of District #1. Another topic discussed was that each district respects each other's area of operation as it pertains to fund raisers.

District #2 Commissioners advised they spoke with the Tinton Falls Mayor about the purchase of the fire training facility/building on Ft. Monmouth. They will advise of details, i.e. purchase price, etc., when available.

To close the presentation of District #1, Commissioner Calvo discussed the maintenance of Fire 8 which is a joint effort between District 1 & 2 to include inspection of antennas, service monitors to be installed, and problems with portable radios. Awaiting quotes.

Workshop adjourned at 7:30
